Declaration of Consent for Public Sharing and Independent Review of Project Work

I, the undersigned, hereby declare that I have no objection to the public sharing, uploading, downloading, distribution, and independent review of the work submitted by me as part of my project.

I give my consent for the following materials to be made publicly accessible:

1. **Source Code (GitHub):** The source code, after my review and approval, may be uploaded to GitHub. The repository link may be shared with classmates, faculty members, and the public for downloading, inspection, and independent verification. I have no objection to its examination for originality, authenticity, implementation.
2. **Video Presentation (YouTube):** The video PPT/presentation prepared as part of my project, after my review, may be uploaded to YouTube. The public link may be shared with classmates, faculty members, and other interested individuals for viewing and evaluation.
3. **Research Article (Preprint Server):** If a research article is prepared as part of this project, I have no objection to its submission to an appropriate preprint server for public access, academic scrutiny, and independent review, subject to applicable policies.
4. **Public Evaluation and Academic Review:** I have no objection to the above materials being accessed, downloaded, reviewed, evaluated, and discussed by classmates, faculty members, researchers, or other members of the public for academic and educational purposes.

I confirm that this consent is given voluntarily and that I understand the implications of making my project work publicly accessible.

Student Name: Gautam Balasubramanian

Project Title: Neural-Network Extraction of Nucleon-Nucleon Low-Energy Contact Constants from Phase Shifts

Roll Number: 24123013

Department: Physics

Date: 2/11/2026

Signature:
